Exterior Design

Electrified Streamliner

Hyundai Ioniq 6 has a Streamlined shape that brings that naturally sculpted beauty of river stone with a simple and outstanding aerodynamic and sensuous design. It offers optimized shape and new features to lead the EV world. It more looks like a Porsche car which brings a unique appearance of the car.

Futuristics Design

Ioniq 6 has a futuristic which attracts attention to the outer looks. Its rear part and front headlamps bring a more attractive to this car. Also has front lower sensors, and the design has evolved and integrated to the reinforce brand Identity of the **2023 Hyundai IONIQ 6.** The best thing about the IONIQ 6 is that the parametric Pixel links the digital and analog to connect generations toward an electric future.

Transparency brings a futuristics look on the rear end

As an ordinary car, IONIQ 6 has no transparent glass on the back end which reflect the lights but has a camera that shows good vision on display The IONIQ 6 car has a unique and striking design that stands out from other cars in its range. It has a sleek and futuristic shape, with smooth, glass-like surfaces that beautifully reflect light.

This design is not only visually appealing, but it also highlights the car’s practical features and creates a sensory and emotional experience for the driver and

passengers. Even small details like the rear spoiler, shark antenna, and interior features like the DSM camera, crash pad garnish, door map pocket, and console lower have been carefully designed to add to the car's overall look and feel.

Interior, Comfort, and Cargo Space

Introducing a host of luxurious and functional upgrades for your car! Enjoy the sleek and stylish Door Scuff – Deluxe Plate and First Edition Floor Mats that elevate the interior look of your vehicle. The IONIQ 6 Floor Mats offer additional protection and durability. Hyundai ioniq 6 has ultrawide power sunroof opens the interior to more light and fresh air.

Dimension

The Hyundai Ioniq 6 has impressive dimensions, with a height of 1495 mm (4 ft 11 in), a width of 1880 mm (6 ft 2 in), and a length of 4855 mm (15 ft 11 in). It has a **ground clearance** of 141 mm (6 in) when unladen, and a **wheelbase** of 2950 mm (9 ft 8 in). With a weight of 1968 kg (4339 lbs), the car has a turning circle of 11.82 m (38 ft 9 in). The tire size of the Hyundai Ioniq 6 is 225/55 R18 9, and the wheel size is 191×189 +51 (7.5×189 +51). These measurements show that the Hyundai Ioniq 6 is a well-proportioned car that is spacious and comfortable for passengers while also being agile and easy to handle.

Specification

- Body type: Sedan
- Doors: 4
- Seat Number:5
- Length: 191.1 in/ 4855 mm
- Height: 58.9 in/ 1495 mm
- Curb Weight: 4543.73 lb / 2061 kg
- Electric motor: 168 kW, 350 Nm
- Location: Rear
- Top Speed: 115 mph / 185

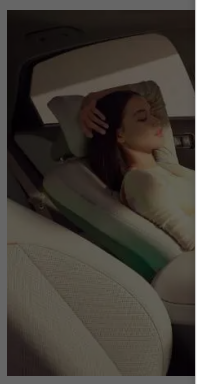

EV Motor, Power, and Performance

You will be amazed that IONIQ 6 can accelerate from 0 to 100km in just 5.1 seconds in a wheel drive version with a long-range 77.4 kWh battery. Ioniq 6 also comes up with 53kWh battery which has a range of 257 miles in a single charge. Also you can compare with the **Polestar 4 range** and price rate.

Range, Battery Life, and Charging

IONIQ 6 was designed to charge faster which makes a unique and equipped with a **77.4 kWh battery installed** with two powertrains (rear-wheel drive and all-wheel drive) that offers 338 miles of range. With the ultra-fast charger of 220kW, you can charge up to 10- 80% in 18 – 1
your coffee and environment.

Infotainment and

Ioniq 6 has a **big screen (12.**
the infotainment system, so y

It has a system that makes engine noise, even though the car is electric, so you can hear it when you're driving. You can connect your phone via Bluetooth and use voice commands to control things like music and calls. The car also has a premium sound system with eight speakers made by BOSE.

You can use **Android Auto or Apple CarPlay** to connect your phone and use apps on the car's touchscreen. There are buttons on the steering wheel that let you control the audio system without taking your hands off the wheel. There are USB ports in the front and back of the car, and a wireless charging pad for your phone.

The car has lots of safety features to keep you and your passengers safe. There are airbags in the front and sides, and a system that helps you avoid collisions with other cars that are in your blind spot. The car can also help you park and warn you if someone is in the back seat.

There are systems that help you avoid accidents by keeping you in your lane and braking if you're getting too close to the car in front of you. The car can also tell you if your tires are low on air and help you stay within the speed limit.
